

## Silver-Dollar: (Solvent: HA)

Silver-Dollar series offer high metallic luster with great reflective appearance. The particles look like coin with smooth surface and minimum rough edges.

Grades	Average Particle Size (D50) ( $\mu\text{m}$ )	Non Volatile Content ( $\pm 2\%$ )	Screen Analysis (325 mesh <%)	Applications
SD 07	7	70	0.5	OEM, Refinish, Coil, Industry
SD 08	8	70	0.5	
SD 09	9	70	1.0	
SD 10	10	70	1.0	
SD 12	12	70	1.0	
SD 17	17	65	1.0	

Properties reported here are typical of average lots. Saminfam co. makes no representation that the material in any particular shipment will conform exactly to the values given.
